The Tula Large Ivory Bowl is a multi-dimensional work of art. Hand-thrown from ceramic, the pattern on the surface of the decorative accessory is achieved when an artisan punches it with a tool to create one circle at a time. The raised shapes that are created and the striations on the inside resist the ivory reactive glaze to let the original color of the material show through. We offer the Tula in ivory in three sizes, which make them perfect for arranging in a display.
