

SPARROW | 88731

Inspired by the graceful motion of a sparrow in flight, Sparrow pairs sculptural form with dependable outdoor performance. Three gently curving ABS blades sweep from a compact DC motor housing, creating a light, aerodynamic silhouette with quiet visual movement. Wet-rated for outdoor applications, the fan includes an integrated light kit with an optional cover plate for a cleaner look when illumination is not needed. A hardwired 2-wire DC wall switch controls fan speed, reverse function, and lighting, making Sparrow both elegant and easy to live with.
