B → A → C → D → E

1. Carefully unpack and identify all parts referring to illustration for parts identification.
2. Turn the power to the installation point OFF.
3. Unravel the supply power and ground wires and pass them through the assembled rods (B) and canopy assembly (C).
4. Thread the bottom end of rods (B) onto the nipple on the socket assembly (A).
5. Install the top of rods (B) onto the canopy assembly (C).
6. Refer to the additional installation instructions included with the product for wiring and installation.
7. Place the glass (D) onto the socket assembly (A) and secure with the socket ring (E).
8. Install proper bulbs (not provided) to the sockets referring to the marking and/or labels on the fixture for maximum wattage.
9. Restore the power to the installation point ON.
10. Assembly is completely. Retain this sheet for future reference.

Important note:

Glass is hand blown. Each piece has a slight variance on thickness and weight. Do not mix the glass with those from other fixtures.
