LIGHT GUIDE RING

2650.03W

Sonneman

Like X's and O's, the Light Guide Ring family pairs clean, linear metalwork with circular shades. The contrast between the geometric frame and the shallow, disc-like shades creates contemporary compositions that feel equally graphic and fluid. In addition to the light being directed up and down, it also reflects within each metal form, creating a dimensional glow. As a pared-back wall sconce and multi-arm pendants, this family adapts easily across dining areas, living rooms, and long corridors. Available in multiple sizes with Satin Black and Satin White finishes.
